**Nuestros productos son el resultado de nuestra cultura, mentalidad y filosofía corporativa basada prioritariamente en la innovación, la calidad y en nuestra preocupación por un entorno sostenible. En Ape Cerámica apostamos por la ecología porque sabemos que ser una empresa de futuro pasa por ser una empresa responsable con el cuidado del planeta. Our products are the result of our culture, mentality and corporate philosophy. They are primarily based on innovation, quality and our concern for a sustainable environment. At Ape Ceramica we are committed to ecology because we know that we must take care of our planet if we want to be a company of the future. So much so that we have the technical, human and economic means at our disposal to prevent the environmental impact that can be generated by our activity and to grant the security of our staff and our social environment.

# 30 años moldeando el futuro

30 years moulding the future

Abrimos un nuevo capítulo en nuestra historia: este 2022 se vuelve especial gracias a nuestro 30 aniversario. Llegamos a ese momento como la compañía líder en la creación de espacios diferenciados, donde el diseño de nuestros productos y el servicio personalizado son la clave de nuestro crecimiento.

Una meta tan importante como difícil de alcanzar en los tiempos que corren, pero que no hubiera sido posible sin nuestros equipos, clientes, proveedores y colaboradores. Una satisfacción compartida con todas las partes que hacen posible la mezcla perfecta.

Llegados a este punto, ponemos la mirada en el mañana, en seguir descubriendo tendencias emergentes y escuchar a un mundo en constante evolución. Nuestro propósito es conocer, aprender y sumar. Ser capaces de abordar cualquier desafío con perspectiva y conocimiento para aportar una solución de valor.

Es un año de futuro, de mirar hacia delante, de abrazar nuevas corrientes y de transformación digital. Nos reconvertimos para seguir por el buen camino, trabajando en estrategias de futuro, implementando nuevas herramientas y tecnología para estar cada vez más cerca de nuestros públicos, de nuestro entorno y del sector.

We open a new chapter in our history: this 2022 becomes special thanks to our 30th anniversary.

We arrived at that moment as the leading company in the creation of differentiated spaces, where the design of our products and personalized service are the key to our growth.

A goal as important as it is difficult to achieve in these times, but which wouldn't have been possible without our teams, clients, suppliers and collaborators. A shared satisfaction with all the parties that make the perfect mix possible.

At this point, we have an eye on tomorrow to continue discovering emerging trends and listening to a world in constant evolution. Our purpose is to know, learn and add. Being able to tackle any challenge with perspective and knowledge to provide a valuable solution.

It is a year of future, of looking forward, of embracing new currents and of digital transformation. We reconvert ourselves to continue on the right path, working on strategies for the future, implementing new tools and technology to be ever closer to our audiences, our environment and the sector.

# Wood

Ceramic wood allows us to work in finishes and textures of real wood, but with the technical features of the most advanced ceramic. Our collections offer a large range of possibilities in types of wood, formats, colors and finishes. The collections are completed with options for outdoor spaces and swimming pools.

La madera cerámica permite trabajar acabados y texturas propias del material natural, pero con las características técnicas de la cerámica más avanzada. Nuestras colecciones ofrecen un amplio abanico de posibilidades, en tipos de madera, formatos, colores y acabados. Las colecciones se completan con opciones para exteriores y piscinas.
